

## SKIN RESURFACING

### MICRODERMABRASION 45 min

A safe, non-chemical procedure that deeply exfoliates the skin and stimulates cell growth. For best results, multiple treatments are recommended at 7-14 day intervals.

\$175

Add a collagen mask for \$35

### DERMAPLANING 45 min

The hottest trend in medical aesthetics! A scalpel and a delicate touch are used to remove 14-20 layers of dead skin cells — 2x deeper than microdermabrasion.

\$175

Add a collagen mask for \$35

### LIMELIGHT® - PHOTOFACIAL

The Cutera® LimeLight delivers a non-invasive light treatment customizable for different skin tones and aging skin conditions, providing exceptionally effective skin rejuvenation with minimal discomfort. It is ideal for any part of your face, neck and décolleté with skin redness, telangiectasia (tiny veins) or brown spots. Light (low contrast) brown spots, which were previously difficult to resolve, respond very well to treatment.

#### INDIVIDUAL SESSIONS:

Face \$450    Neck \$350    Décolleté \$450    Hands \$275    Spot Treat \$200

#### PACKAGE OF THREE:

Face \$1125    Neck \$875    Décolleté \$1125    Hands \$685    Spot Treat \$500

### TITAN™

The new Cutera® Titan gives you an all natural option to actively turn back the clock on aging skin. Using light energy to stimulate new collagen growth deep beneath your skin's surface, Titan can tighten skin on your face, arms, abdomen, and legs. It's an ideal solution to enhance your youthful and healthy appearance without surgery, recovery time, or injections.

#### INDIVIDUAL SESSIONS:

Full Face \$1500    Half Face \$750    Neck \$750

### LASER GENESIS SKIN THERAPY

Laser Genesis skin therapy promotes vibrant and healthy-looking skin in men and women. Now you can have a more youthful appearance by treating those premature signs of aging and sun damage, such as excessive redness, large pores, uneven texture, and fine line wrinkles.

#### INDIVIDUAL SESSIONS:

Face \$375    Neck \$225    Décolleté \$375

#### PACKAGE OF 4:

Face \$1275    Neck \$725    Décolleté \$1275

#### PACKAGE OF 6:

Face \$1900    Neck \$1125    Décolleté \$1900

## REJUVENATING FACIALS

### SIGNATURE FACIAL 60 min

\$125

A skin type specific cleanse, exfoliation and extractions are followed by a nourishing treatment masque to revitalize your skin. A shoulder, arm, hand, and facial massage adds to the rejuvenation.

### DEEP CLEANSING FACIAL 75 min

\$150

Ideal for oily, acne, or problem-prone skin. This facial includes a deep pore cleansing enzyme treatment, steam, extractions, and a customized soothing masque.

### PURE MARINE COLLAGEN FACIAL 60 min

\$130

This double-masking facial instantly boosts radiance using the purest form of native marine collagen, Omega-3s, wrinkle-reducing peptides, and moisture-replenishing hyaluronic acid. Fine lines and dehydrated skin will look and feel dramatically better.

### RENEW & LIFT ANTI-AGING FACIAL 60 min

\$125

Includes all the steps of a Signature Facial, but with ingredients that are targeted towards more "mature" skin (typically 40 years and up) to provide anti-aging benefits.

### ULTRA CALMING FACIAL 60 min

\$125

Designed for irritated, inflamed, or rosacea-prone skin. A gentle cleansing, calming concentrate treatment, and a two-layer masque delivers highly comforting and healing ingredients, leaving your skin feeling moisturized and rejuvenated.

### EXPRESS FACIAL 30 min

\$55

The perfect facial treatment for those on the go. This mini facial includes cleansing, pore-refining exfoliation, and a masque personalized for your skin needs. Does not include extraction or massage.

### TEEN FACIAL 60 min

\$95

This facial addresses breakouts associated with adolescent skin. Deep cleansing and a gentle exfoliating treatment is followed by a healing masque to help rehydrate the skin.

### CUSTOMIZED TREATMENTS AND

PACKAGES AVAILABLE UPON REQUEST.

THERMIVA®

ThermiVa is a new, non-invasive, non-surgical procedure that uses radiofrequency energy to help reclaim, restore and revive vaginal skin and tissue. ThermiVa treatments provide gentle heat to contract tissues, also encouraging collagen production and potential tissue and nerve healing. Radiofrequency's therapeutic effects on muscular and tissue healing is well known and has been used in physical therapy practices for decades. ThermiVa treatments require no anesthesia. There is no downtime and women can resume their normal sexual activity the same day.

ThermiVa has shown proven results in one or more of these areas:

- **VAGINAL LAXITY:** to tighten the vagina at the entrance to and full length of the vaginal canal.
- **VULVAR/LABIAL LAXITY:** to tighten the labial tissues and reduce noticeable sag.
- **VAGINAL/VULVAR DRYNESS OR ATROPHIC VAGINITIS:** to add softer and thicker skin and relieve dryness without the use of hormones.
- **MILD TO MODERATE STRESS INCONTINENCE:** to reduce accidents and leakage, and possibly reduce urge symptoms. Used with consistent Kegel exercises, ThermiVa may reduce or eliminate the need for mesh slings.
- **SEXUAL DYSFUNCTION:** to increase sensitivity and strengthen muscular contractions, leading to greater sexual satisfaction for women and their partners.

CUTERA® COOLGLIDE®

Now men and women alike are making unwanted facial and body hair a thing of the past — thanks to the Cutera CoolGlide Laser. No more painful waxing, electrolysis or razors! The CoolGlide Laser delivers 21st century technology for treatment of this distressing problem. Cleared for permanent hair reduction, the CoolGlide Laser can treat men and women of all skin types safely and effectively, year-round. Even patients with a suntan.

ANTI-AGING PRP TREATMENTS

HAIR RESTORATION

PRP hair restoration is a non-surgical hair restoration option that can help improve hair growth in both men and women by using the body's own healing growth factors. It involves only a quick and painless blood draw that is reinjected into the scalp. PRP hair restoration operates on the principle that the human body houses many of the things people need to address their aesthetic concerns. PRP treatments hone in on the healing potential of the blood. Human blood contains stem cells and other essential components that are responsible for much of the healing and regeneration that takes place in the body. Most patients interested increasing hair growth or correcting hair loss are potential candidate for PRP hair restoration.

FACELIFT

PRP Facelift uses hyaluronic acid (HA) fillers to lift the skin away from the bone to restore youthful volume and shape. Unlike most other procedures, PRP Facelift offers a way of both restoring shape, and improving tone and texture, as well as literally rejuvenating new and younger tissue.

**PRP Facelift is a 3 step process.** First, HA fillers (like Restylane or Juvederm) are injected to create a beautiful shape. Then, growth factors are isolated from the patients blood. Finally, when these growth factors enter the face (injection), multi-potent stem cells become activated to grow new tissue. This new tissue includes new collagen, new fatty tissue (for smoothness), and new blood vessels (for a healthy glow). The result is younger-appearing skin and the effects of the procedure improve for 2 to 3 months and last for at least 1 to 2 years!

FACIALS

Facial procedures use the same blood-derived growth factors used the PRP Facelift. The difference is that with PRP Facial we apply the PRP topically to restore the skin and bring out the color and texture of the face.

PRP SHOT

If you're a woman struggling with a sexual pleasure disorder, you may choose to suffer in silence rather than seek out a solution. More women suffer from sexual pleasure problems then you would expect, especially as they get older. Some of the most common disorders include Female Sexual Arousal Disorder, Female Orgasmic Disorder, and Dyspareunia. This is only a small sample of the possible problems women can develop. While there are many medications available for men suffering from sexual dysfunction, solutions for women have lagged behind: until now!

The PRP Shot is a state-of-the-art procedure that can solve all of these sexual disorders in women safely and naturally. PRP is injected into the vaginal tissue to stimulate the growth of new tissues and collagen and causes other healing growth factors to rush to the site of injection.

WEIGHT LOSS / BODY CONTOURING PROCEDURES

Weight loss is never easy and near impossible long term without the sort of professional help that we can provide at AMISurgery. From non-invasive to minimally-invasive surgical techniques, we can help you lose weight in a safe and effective manner. Our services go beyond the average weight loss program. Ask our team how we can help.

GASTRIC BALLOON | MEDICALLY SUPERVISED WEIGHT LOSS | SURGICAL WEIGHT LOSS

COOLSCULPTING®

The CoolSculpting fat-freezing procedure is the only FDA-cleared,\* non-surgical fat-reduction treatment that uses controlled cooling to eliminate stubborn fat that resists all efforts through diet and exercise. The results are proven, noticeable, and lasting — so you'll look great from every angle.

BENEFITS

- NO ANESTHESIA • NO SURGERY • NO NEEDLES
- NO INVASIVE TECHNIQUES • NO DOWNTIME
- FDA-CLEARED

FOR MORE INFORMATION, VISIT [BARESKINRX.COM](http://BARESKINRX.COM)

KYBELLA®

KYBELLA is the only FDA-approved injectable treatment for adults that destroys fat cells under the chin to improve your profile – whether you have a moderate amount of chin fullness or a bit more.

	per Treatment
1st Treatment	\$1200
2nd Treatment	\$1000
3rd Treatment	\$800

\*In the U.S., the CoolSculpting procedure is FDA-cleared for the treatment of visible fat bulges in the submental area, thigh, abdomen and flank, along with bra fat, back fat, and underneath the buttocks (also known as banana roll). In Taiwan, the CoolSculpting procedure is cleared for the breakdown of fat in the flank (love handle), abdomen, and thigh. Outside the U.S. and Taiwan, the CoolSculpting procedure for non-invasive fat reduction is available worldwide. ZELTIQ, CoolSculpting, the CoolSculpting logo, the Snowflake design are registered trademarks of ZELTIQ Aesthetics, Inc. © 2017. CoolSculpting is the treatment doctors use most for non-invasive fat removal.

\*Individual patient results may vary based on patients medical history and other health factors.

SPIDER & VARICOSE VEIN TREATMENTS

COOLGLIDE VEIN THERAPY

Make unsightly facial and leg veins a thing of the past without painful injections. Using the most advanced technology, Cutera CoolGlide safely and effectively treats both tiny superficial face veins and deeper blue leg veins on men and women of all skin tones.

15 minute session	\$250
30 minute session	\$450

DUPLEX ULTRASOUND

A non-invasive, painless method to evaluate your veins and the blood flow within them to determine the extent of any venous disease.

VNUS CLOSURE (Radiofrequency)

A minimally-invasive procedure that inserts a small fiber directly into the varicose vein delivering targeted radio-frequency energy to seal the vein and reroute blood flow to healthy veins. Quick, easy and leaving no scarring, this procedure takes only a few minutes. A simple and reliable method of removing varicose veins.

ENDOVENOUS LASER TREATMENT (EVLT®)

A minimally-invasive procedure that inserts a small laser fiber directly into the varicose vein, delivering laser energy to the inner vein wall. It produces minimal to no pain, often completed in under 20 minutes.

VEIN SURGERY (Ligation & Stripping)

Rarely performed, but when indicated can be performed by our board-certified general surgeon.

CLARIVEIN®

A minimally-invasive technique which combines sclerotherapy and mechanical agitation of the inner vein wall to close the varicose vein. It produces minimal to no discomfort, often completed in under 20 minutes.

AMBULATORY PHLEBECTOMY

Involves the direct vein removal of larger, bulging varicose veins. Performed in the office under local anesthesia.

SCLEROTHERAPY INJECTIONS FOR SPIDER VEINS

First Session	\$450
Second Session	\$250
Third Session	\$250
Fourth Session	Gratis
Additional sessions within 3 months of initial session \$200
